

S.P.A.R.C.

In 2008, the City of Alexandria embarked on the largest reinvestment project in its history.

Known as S.P.A.R.C. (or Special Planned Activity Redevelopment Corridors), the project includes nearly \$100 million in infrastructure improvements in the most blighted and under-served areas in the City.

90% of the money spent in the S.P.A.R.C. project will be on permanent, publicly-owned infrastructure.

The remaining 10% will be allocated for business incentives, in order to foster private-sector employment and investment opportunities.

S.P.A.R.C. identified three major activity corridors. These corridors correspond with three separate Cultural Restorative Areas (CRAs):

1. Downtown and the Riverfront
2. Bolton Avenue and North MacArthur Drive
3. Lee Street and Masonic Drive.

Although S.P.A.R.C. is a large-scale catalytic redevelopment project, it is based, in large part, on plans already developed by the community, many of which have documented the need for intervention for over a decade.
